Recommendation Letter

Sweden 9 August 2020

To Whom It May Concern

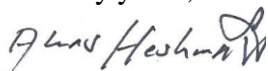

It is a great pleasure for me to write this letter of recommendation in support of Dr. Selamawit G/egziabher Kebede. I have known Selamawit since 2016 during her PhD studies in Economics at Addis Ababa University. The Doctoral Program was part of collaborative PhD program between Addis Ababa University and Jönköping International Business School, at Jönköping University in Sweden where I hold position of Professor of Economics. During this time, Selamawit attended a course in Development Economics and another in advanced Econometrics given by me. I also served as her main supervisor for her PhD research in which she showed an excellent performance throughout the process.

Dr. Selamawit is a hardworking and diligent person with exceptionally positive attitude. She is specialized in industrial economics and policy. She takes her duties and responsibilities very seriously and is always inclusive and cooperative in team work. Her ability to get along with people easily, problem solving skill and inherent approach to make her work environment appealing and interesting undoubtedly make her one among my best PhD students. In addition to her punctuality in delivering result of high quality, higher academic performance and research skill, I am very confident that she is a type of person with higher dedication and vibrant energy contributes to harmony in the research environment. She always can withstand any hardship in real life and can overcome challenges in her professional career.

Based on my observation of Dr. Selamawit performance during her PhD studies, her presentations at international conferences and weekly departmental seminars, and our joint research cooperation, I found her an excellent team member. I therefore, fully recommend her without any reservation for further training, capacity building, post-doc, Assistant Professor, lecturer, researcher or any other positions of her choice that can help her to further develop her research capacity. Finally, I would like to thank you in advance for considering her application positively and give her the chance to demonstrate her excellent talent.

Please do not hesitate to contact me, should you need additional information.

Sincerely yours,

Almas Heshmati
